The Journey of Soul

A story in images of Soul's journey through life as seen by the visionary spiritual artist Ed Parkinson. Each image has a story to tell and they all come together to explain our journey as Soul.

Some of the scenes may resonate with you on a deep level while others can offer peace and relaxation. There are insights and wisdom to be gained while you consider and contemplate on the details and theme of each piece.

For more information and details about each image please visit Ed's web site www.EdP-SpiritualArt.com and also his blog which is updated weekly with a *Thought for the Week*, *Inspirational Quote* and news about the work he is currently creating www.SpiritualArtBlog.com

1. Spirals
This is where we start. We enter the worlds of time, space and opposites, where our mission is to realise we are Soul, a particle of God.

2. Love's Waterfall
We flow into these worlds with God's love. There are numerous other Souls with us. The Love that flows with us sustains our worlds, keeps them working and allows us have our experiences.

3. Soul's Journey Begins
For some of us this journey is a tough challenge. We see the trouble and pain as the mainstay of our existence here.

4. Path of Lives
For others life is a series of paths. As we live more, we learn more. We take an occasional detour but these "mistakes" teach us a lot and help us realise the direction to should we aiming for.

5. Sacred Steps
Along the way there are places we can rest and reflect on our journey. At these places we may meet a guide or person who's wisdom helps us understand our paths and can give us direction.

6. River Sanctuary
We continue our journey visiting many places and meeting different masters who give us encouragement and enlightenment.

7. Life Continues Within
One of the significant events we go through at the end of our lives is the death of our physical body. Depending on our belief system this can be a terrifying or terrific experience. If we truly believe in an afterlife or reincarnation the leaving of our physical bodies results in a celebration and graduation from life.

8. River of God
We then go to one of the heavens above the physical worlds. Here we rest and recuperate or continue our education on why we are on this journey.

9. Soul Choosing It's New Life
Then it comes to the time where we must choose our new physical life. In doing this we study our past lives and select other Souls events, challenges and trials which will help us learn and grow in our next life. We will get guidance from our Guide or Angel on making the best selection for our new life.

10. Family Tapestry
In living our lives we create a family tapestry where we intermingle with the same Souls again and again. This allows us to develop our love and learn from the Souls we spend our lives with.

11. Contemplation
One of the methods we can use to gain insights into our lives is contemplation. A valuable method I have found is singing the word HU. It's an ancient name for God and helps you connect with the life force or Holy Spirit or Higher Power.

12. Soul Overseeing
By doing spiritual exercises we get to a position where Soul is Overseeing our lives. We get a better understanding of our lives, how they work, what our role is and the next part of your journey home.
